# Weather Key Points

Regional Operations Center

Western Region

Wednesday, February 15

- Lingering gusty winds are possible across portions of southern California Wednesday, but generally with much lower speeds than what was experienced Tuesday
- Much colder temperatures are forecast statewide through late week, with sub-freezing overnight temperatures likely for most locations away from the coast
- Dry conditions are expected across the state into next week, with low chances of light precipitation along the coast possible Thursday through the weekend. No significant impacts currently expected

# Daily Precipitation Forecast

Regional Operations Center

Western Region

Wednesday, February 15

**Dry conditions are expected through Friday**

**Important Note:** Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

**Precipitation (inches)**

# Weather Outlook (6-14 Days)
